John S Sayward —Editor

TUESDAY, DECEMBER 25, 1849.

After a portion of our Daily paper was worked off yesterday morning we received the following dispatch, announcing the election of the Speaker of the House of Representatives [illegible] We must [illegible] yesterday's edition was issued [illegible] ers before we [illegible] d the n[illegible]

Washington Dec [illegible]

The House has elected a Speaker HOWELL COBB of Ga by a vote of [illegible] Winthrop has [illegible] Hon [illegible] rality should be [illegible]

This election assures to the locos the ascendancy of the [illegible] the House [illegible] have the control of the Senate and the responsibility of the legislative branch of the government rests upon them This is by no means an agreeable [illegible] since we had hoped that the country was to be benefitted emphatically and essentially so, by those measures which the Whig party have so earnestly contended [illegible] believe to be [illegible]

At the [illegible] writing we have some expectation [illegible] ing, by telegraph a synopsis of the message [illegible] to our readers to day If it should not [illegible] season we shall permit no delay in laying it before our readers, in order to enable them to judge of the merits and of the views of the Executive department of the government

We have received a copy of the Bath Daily Advertiser, published in Bath by J S Swift. It is a snug little paper, well printed, and is to be independant of party bias The price is three dollars a year. It may live, if economy and application only are necessary, but the experiment has been tried in that city an failed The fact is that the trouble and expense of maintaining a daily paper, such as people would be satisfied with, are rather more than most communities are willing to pay for But the editor of the Advertiser knows his own business better than we know it, and therefore we are glad to see him go ahead. It is a good way to test the demand for a local daily by putting the price to correspond with the first necessarily limited number of subscribers Those who really feel the need of a daily would not hesitate in paying a couple of dollars extra, and the price could afterwards be reduced when the scription list would warrant it

The most Daring Robbery yet.

On Saturday evening last Mr Wm Strange, while going from his store, was attacked on Hancock street by three ruffians, knocked down senseless by a heavy blow over one of his eyes, and his pockets rifled of between sixty and seventy dollars

Mr Strange was found in the street and notice given to his son in the store He was carried home, and was yesterday unable to see out of the bruised eye No trace of these highwaymen has as yet been discovered This daring outrage added to the numerous robberies which have taken place here within a few months, calls loudly for the most sleepless and [illegible] on the part of the city government in every department of it

Our old school fellow, Wm Lloyd Garrison is out in favor of the right of suffrage being conferred upon the women, and has petitioned the Massachusetts legislature to that effect. He is about right in this matter, and we see no very strong reason why the plan may not work well enough, and thus make politics a very pleasant pursuit, and secure a full vote at every election, unless the women should let the right of voting as some men do —never exercising the right unless compelled to be dragged to the polls

Mr Thomas Drew, of Worcester Mass, one of the editors of Burritt's Christian Citizen proposes to publish a volume of the miscellaneous writings of Elihu Burritt, the 'Learned Blacksmith Part first, making the volume, will contain 108 pages, containing thirty five articles which will be sold at 25 cents and where four copies are ordered and address the postage [illegible] paid by the [illegible] This will be an interesting volume

FATAL ACCIDENT ON THE VERMONT CENTRAL RAILROAD —A part of the truss work at Waterooski Falls, Vt., accidentally gave way on Monday while the workmen were engaged upon it killing two [illegible] instantly and wounding several others severely [illegible] were not expected to survive

THE FIRST BI[illegible] A late number of the Pacific News gives the arrival by the ship New Jersey of a [illegible] toned bell weighing four to five hundred pounds, and presented by Henry H, Hooper, Esq of Boston to the first free school established in California

The Bakery and Confectionery establishment of M[illegible] Joseph Brown on Hancock street, was entered through a window on Sunday night and the [illegible] stolen

S P Townsend the sarsaparilla man has sold the good will of his medicine for an hundred thousand dollars, and his stock and machinery for manufacturing for $20,000 more

The trial of Rachel Sharpe in Salem charged with causing the death of her mother by poison, resulted on Friday in the jury disagreeing upon a verdict, and the prisoner was remanded.

Edward, child of Mr Nate James Steele, Jr of Gloucester was found drowned Tuesday at Eastern Point Gloucester He was aged four years

SCENES IN CONGRESS

WASHINGTON Dec [illegible]

Mr Giddings The appearance of Mr Cobb on the floor excited a great deal of attention [illegible] and intimated there was [illegible] held last night by the Whig and Free soil Democrats in which a agreement was made to the effect of which he would be elected by a vote of the majority of the House [illegible] that my colleague from Ohio (Mr Vinton) was Chairman. What I was to do with him, is, what was [illegible] that matter. Was there, for aught I understand an agreement to divide the offices of this House between the parties? and if so, I want to understand how the division was made

Mr Stanley There was an agreement in the Whig caucus to take some steps, which should lead to an organization of the House—a result I trust all parties desire, save a very small one which the gentlemen from Ohio represents

Mr Vinton To the question of the gentleman from Ohio, as it was put, I can say, emphatically No! No step was taken for the division of the offices, nor did I hear the subject alluded to (Laugh at the expense of Giddings, for having missed fire in his inquiries)

Mr Bomb I call the gentleman to order—There cannot be this talk going on, on one side of the House, when on the other exists a gag law, against all, who are disposed to debate, and not to be gagged

Mr Giddings (amid cries of 'order' 'order,'—but finally he got a hearing) What I want to know further is—if there was not an agreement, an arrangement upon the subject of Committees on the Territories and on the District of Columbia, which should stifle all the expression of the Free sentiment in the House?

Mr Ashman (amid cries of 'order 'order')

But the gentleman from Ohio has been allowed to put me a question and it is but just, that I be allowed to answer Permission being given, Mr Ashman replied in a Stentorian voice

No (roars of laughter at the expense of Giddings, from all sides of the House 'Cries—you are on the wrong scent You've missed fire Try him again!

Mr Giddings (puzzled—and scratching his head) Well! Well,—and he sat down amid roars of laughter

Mr Ashman, again 'No' The favorite topic of the gentleman from Ohio, was not touched upon or thought of (amid roars of laughter

Mr Root (Free Soiler of Ohio) amid cries of 'call the roll call the roll'

Mr Root Don't be in a hurry

Mr Stanly What's the question?

Mr Root Don't think there is any, (laughter) 'Mr Clerk' (Roars of laughter at the efforts Mr Root was making to be heard, and renewed—when he was renewing efforts to be heard by crying 'Mr Clerk')

Mr Root being unable to obtain a hearing gave up the effort, amid roars of laughter

Mr Giddings, on the floor, making an effort to be heard gesticulating violently—cries of 'order,' then sitting down exclaiming, 'This is not the first time that I have been choked off the floor

An effort was then made to rescind the rule by which debate was prevented on anything,—but this was voted down, ayes 130, noes 90

A resolution was then introduced to make Mr McDowell of Virginia, the temporary Speaker,—which, without debate was laid upon the table, 127 to 94

THE PROCEEDINGS OF THE CAUCUSES

In the course of these scenes as described above Mr Stanton of Tenn, read the following proceedings of the Caucuses

THE WHIG CAUCUS

The following was the action of the Whig Caucus,

Resolved, That the members of the Whig Party propose to the members of the Democratic Party the appointment of a Committee of the same number on the part of the Whig party to concert upon, and to report to their respective meetings a mode of definitive organization of the House of Representatives, upon just and fair principles, and that Messrs White, of N J, Conrad of Louisiana, Breck, of Ky, Vinton, of Ohio Stanley, of N C, and Ashmun, of Mass, be the Committee on the part of the Whigs

SAMUEL P VINTON, Chairman
Attest, JAMES BROOKS, Secretary

THE DEMOCRATIC CAUCUS

The following was its action

Resolved, That the Chairman of this meeting appoint a committee of the Democratic Party to confer with the Committee appointed by the Whig meeting, and report the result of their conference to a meeting of the Democratic Party, to be held in the Hall of the House of Representatives

J THOMPSON, Chairman
Attest, R H STANTON, of Ky., Secretary,

There is little in the state of parties in the House indicating what will be the result of the underwork compromise The committee as between North and South are equally divided and are composed of former men There is little doubt that there is a strong feeling in favor of an organization but the bitterness and even obstinacy of southern men seems now to be the obstacle It yet will be a matter of regret, if northern men shall turn about for once and put an end to the idle party playing some one actively one of their number in the Chair It would at least convince the new gentleman that there is a point beyond which it is not safe to go But the committee of conference meet to night, and let us hope for the best

FATHER MATHEW IN THE SENATE

In the Senate to day a painful discussion came up on the motion of yesterday to extend to Father Mathew the courtesy of an admission upon the floor of the Senate

It opened the discussion of Slavery, and brought out the substance of the correspondence between that distinguished individual and the Georgia Temperance Society

It appears by a letter published at this time by Senator Berrien that the offence of Father Mathew was on account of which the invitation to him was withdrawn was that which has already been so generally commented upon by the press that some years ago he signed an address against slavery document not in the latter

That was the offence for which Senator Clemens of Alabama violently opposed his admission

Messrs Seward of New York and Hale of New Hampshire unfortunately (as it seemed to the writer) eulogized that action of Father Mathew, not however until much has been said upon the other side —Cor N Y Express

ORONO Dec 20 1849

Knowing that you take no common interest in hearing of and publishing facts relative to remarkable stock and swine raised in Bangor and vicinity I write to inform you that Orono is a little ahead of anything you have yet published

I yesterday butchered for Wm and Jeremiah Colburn, of Orono, a heifer which was but three years old in May last, and weighed when dressed *nine hundred and fifteen pounds* And this heifer had a calf in January last, that they sold when *ten weeks* old for *ten dollars*, and this calf was killed and when dressed weighed 225 pounds If you can find anything to beat this, bring it on and we will try again

AMERICAN INSTITUTE AT WASHINGTON —At the regular meeting of this body, on Monday night, Dr Riofrey, of Paris, made some very interesting and scientific observations on the subject of Consumption *Post mortem* examinations had shown that nature, under certain circumstances, cures the disease From the extensive field of the author's remarks on France, Holland, and Great Britain, it appeared that a cure was effected whenever thin and attenuated men changed their climate and haunts, one or both, and in consequence developed a tendency to become fleshy, he considered a high *northern* and *southern* alike favorable He named the American coast from lat 55 deg north to 7 deg south, as a consumptive latitude He deemed all the temperate latitudes unfavorable

Prof Maury said that lat 17 deg south was precisely the point where the trade winds, relieved from their moisture by the Andes, produced a dry air Dr Gate said that Natchez was a favorable point, in the Mississippi valley, for consumptives? yet Natchez had a very humid climate Dr Borland (U S Senate) confirmed these views The nights were exceedingly damp The wind blew up the river, by noon the dampness from the Gulf Prof Henry attributed the deleterious effects in consumption rather to the amount of change in the thermometer at given points than to the actual state of temperature Prof Maury represented the coasts of Patagonia as literally submerged with rain, twenty-one feet of rain had actually fallen in thirty one days, and he represented the natives physically a most miserable race (Mr Schoolcraft said that it was then a popular error that they were of taller stature than other Indians The whole discussion assumed a tone of high interest.

[National Intelligencer

THE COURSE OF THE SENATE IN ELECTING STANDING COMMITTEES The correspondent of the Commercial Advertiser thus speaks of the course of the Senate in the appointment of chairmen of the standing Committees

"The whole matter was sometime since settled in caucus, and so far as has yet appeared, or had been previously rumored, the only change from the state session in March last, is that Mr. Benton had been removed from the first place on the first of them, and been placed nowhere else The motive of this petty act of proscription is apparent enough, and is, to be very mild and circumspect not creditable to the Senate It is noticed, likewise that Mr Webster occupies no prominent and responsible position in this subordinate organization of the body of which he is one of the most illustrious members, A more lamentable instance of the narrow and virulent spirit of party then is afforded in the exclusion of these two Senators, it would be difficult to find in our recent political history

CALIFORNIA AND CHINA —The Liverpool Journal in speaking of the late California news says

"The news from California is entitled to serious consideration The current of Oriental bommerce has set in a new direction. The West Coast of the United States is now in communication with China, Australia, and the Islands of the Pacific Chinese merchants and manufacturers now trade with California, and Chinese mechanics are now working in San Francisco Pacific communications from the east to the west of the new world will soon be established, and possibly the revolution of the Celestial Empire will date from the discovery of gold in the sands of the Sacramento

Mr Clay and General Taylor are in good terms It is known that Mr Clay dined with him last week in company with Senator Seward, Vice-President Fillmore, and others

General Taylor is cool and collected amid all the storm raised by the extraordinary state of things in the House He did not wish to be President he says and did nothing towards making himself—and he shall do his duty let others do as they please If the majority of the House don't choose to organize he cannot help it He shall go on with the Government, and serve his time out, whether any appropriations are made or not The old hero is just as calm as he was amid the roar of artillery at Buena Vista.—Correspondence N Y Express

WASHINGTON, Dec 22

In the House Mr Stanley offered a resolution which was agreed to, that the House proceed to an election of Speaker viva voce and if after calling the roll three times no member has a majority of all the votes, the roll shall be again called and the member receiving the largest number of votes, providing there be a majority of a quorum, shall be Speaker After a very debate of some hours the resolution was adopted.

Mr Ashmun moved to reconsider This motion was laid on the table.

Mr Stanley and Mr. McClernand withdrew as candidates, and the balloting proceeded.

On the 61st balloting Mr Winthrop received 90 Cobb 95—rest scattering—total 218

On the 62d ballot, Winthrop 92, Cobb 96—total 220

It being o'clock, Mr Baker moved an adjournment, which motion failed, and the chandeliers were lighted The 63d ballot proceeded Winthrop 97, Cobb 97—total 217 The House was now very quiet It was understood that the next vote should decide the question.

On the 64th, Winthrop had 100, Cobb 102, Cobb having a plurality, one of the tellers announced his election, upon which great excitement followed

Mr. Stanley of N C, offered a resolution that Cobb be declared Speaker, which was adopted, and Messrs McDowell and Winthrop conducted him to the chair

Mr Cobb in a brief speech thanked the House for the honor they had conferred upon him, and trusted that with a patriotism as broad as the Union, and comprehensive as nature and her various institutions aided by the blessings of Heaven, action might result in a continued prosperity of our common country

Mr Linn Boyd administered the customary oath of office

Mr Vinton moved that the members be sworn in. The motion was lost and the House adjourned

NEW YORK, Dec 23

A fire in Wolsey's sugar refinery was discovered in the 5th story of a building used as a drying house Mr Platt the conductor of the establishment seized the water hose and played on the flames until his hands and face were so dreadfully burned that he fell insensible He was dragged away and his life saved The loss in sugars is $200,000, on machinery $300,000, on the building 50,000 Total loss as estimated $600,000 Only a small portion was insured as the company had lately let a policy of $250,000 on the property run out Nearly 500 hands were thrown out of employment by this awful calamity

[From Bentley's Miscellany]

A Lyric for Christmas.

Winter has resumed his reign,
Snow envelopes hill and plain,
Sweep the summer flowers in earth,
And the birds are all from mirth;
Yet mirth lighters every eye
Every pulse is beating high,
Gladness smiles in cot and hall,
Like a welcome demon all,
And the church bells sweetly chime
'Tis the merry Christmas time

From the holly tree be brought
Boughs with ruby berries fraught
Search the gray oak high and low
For the mistletoe mistletoe,
Bid the ivy loose her rings
That round rock and ruin clings
Deck the shrine with foliage green
In each house-be reduce seen,
Just as earth were in her prime —
'Tis the merry Christmas time

Pile the board with viands rare,
Savory dishes—hearty fare,
Brawn of boar, and capon good,
Fowls from river, marsh, and wood,
Partridge plump, and pheasant wild,
Teal and duck by art beguiled,
Bid the huge sirloin smoke high,
Luscious pastry, fruit stored pie,
Fruit that grew in Eastern clime —
'Tis the merry Christmas time

Feed the hungry, clothe the poor,
Chide no wanderer from the door,
Bountious give with thankful mind,
To the wretched of mankind,
This day throws the barrier down,
'Twixt the noble and the clown,
For an equal share have all
In the blessed festival,
Of each color, class, and clime,—
'Tis the holy Christmas time

As our fathers used of old,
Still the solemn rites we hold,
And with season hallowed mirth
Celebrate our Saviour's birth
Chaunt those ancient carols well,
That the wondrous story tell
Call the jocund musicters in,
Bid the dancers' sport begin
Blameless tale and cheerful song
Shall our merriment prolong,
Whilst around the church bells chime
For the solemn Christmas time

THE VEGETABLE PULMONARY BALSAM

Is the Most Highly Approved and Popular Standard Medicine now in General Use for

COUGHS COLDS AND CONSUMPTIONS, *Asthma Pleurisy, Pitts of Spitting of Blood, Hooping Cough, Bronchitis,* and all Pulmonary Affections and Diseases of the Lungs and Chest—

It is thus spoken of by eminent Physicians. One says—"For the above complaints it is superior to other preparations used" Another—"It has been followed with *considerable* success, and has an superiority over many kinds of medicine used" Another—"I speak with *confidence* recommend it" Another—"It has been used with complete success and I am *satisfied* that it is a *valuable* medicine" Another—"It is a *safe* *convenient*, and *very efficacious* medicine" Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it" Another—"It is equal if not superior to any other medicine within my knowledge"

Extract from a letter dated Dayton, Ill April 13, 1849—"I was first introduced into my family by a celebrated Physician some ten years ago, and since was the means of saving my wife destroyed from it that we have not been without it in our house since I have also recommended it to at least fifty different persons since for Affections of the Lungs, and I do not know of a *single* case in which it did not give *immediate* relief, and some we have cured after being given up by their Physicians"

BEWARE OF COUNTERFEITS AND IMITATIONS, such as Carter's Compound Pulmonary Balsam, American Pulmonary Balsam, and others, in not bearing the name "Epworth" for the article by its whole name the

VEGETABLE PULMONARY BALSAM" and see that it has the written signature of Wm Jones Carter upon a yellow label, on the blue wrapper Each bottle and seal is stamped "Vegetable Pulmonary Balsam"

Prepared by DEPEW & CUTLER Importers and Wholesale Druggists Medicines, Paints Chemicals and Dye Stuffs, 33 India Street, Boston, and sold by Druggists Apothecaries and Country Merchants generally For particulars and recommendations see a Pamphlet accompanying each bottle Price 50 cents

Drummond Candlestick.

THE novelty of the idea of "making and wicking your own candles, by simply turning the bottom of the Candlestick" seems to require a statement of a few facts in regard to the properties of tallow and tallow candles, not generally known

The hardest tallow, when subjected to a kneading process, becomes plastic This fact was discovered by the gentleman, whose name has been given to the Candlestick

It is generally [illegible] run or drop, because it is tallow This is a mistake The dry wick, by absorbing a part of the melting material together with the consumption, prevents running or dropping, *hence the advantage of the Drummond Candlestick* It makes and wicks its own candles out of tallow, lard, or other substance of which cheap candles are made simply by pouring in the melted grease into the lower chamber of the Candlestick and by the action of the Screw turns out a candle smooth, hard and of any desired length The paramount advantage is, that the light can always be kept near the object to be seen, the candle, if desired always the same length

Its economy —The trouble of filling, being less than a Lamp, instead of only requires to be filled once in six days' allowing it to be burned four hours, the usual time in which artificial light is required,—you have a candle at the low price of one cent per night

White's Hair Restorative!

A PURELY VEGETABLE COMPOUND For Restoring, Nourishing, Cleansing, Softening, THE HAIR.

THIS elegant preparation is for taking the place of all other preparations of a similar force for staining and dressing the Hair. It prevents the Hair from falling off, promotes its growth, removes dandruff, and restores the natural color of the hair in a short time, with the Hair in a healthy vigorous condition. No lady's toilet can be complete without this indispensable article.

RECOMMENDATION

[Certificate of Dr Fenny, Portsmouth N H]

Portsmouth, Sept 29 1849

Mr J P. Moses, Agent for "White's Hair Restorative."

Dear Sir—I deem it my duty to state some facts respecting the medicinal value of White's Hair Restorative. Previously to using this article of which I speak, my wife lost all of her hair, the scalp apparently diseased and, the hair grew out broken and useless. After using one bottle of sickness, she lost all her hair a second time, and for a long time there was not even a down on the scalp. Among various applications I was induced to try the above medicine. In five months after the use of a few bottles her hair began to grow out in the usual fashion, and it has never fallen since. Full from a long time I was troubled with neuralgia and other pains in the head, for which I found the best relief in the use of this medicine. I can therefore recommend it to all who are afflicted in the above way.

Yours respectfully, A FENNY, M D.

DR. SPEAR'S

DR S UNCELEBRATED

Indian Vegetable Medicines,

ARE universally Acknowledged to be the Safest, Surest, and most Powerful Medicines ever discovered for the sick. They can be relied on with confidence to cure all curable cases. Their success in medicine and their high satisfactory cures, are their proof. Thousands of lives have been pronounced incurable by their Physicians, yet live to testify to the virtues of these extraordinary yet potent medicines, having been restored to sound health by their use.

We will name here some of the principal medicines and their uses, to enable the enquirer after health, to use the "FAMILY PHYSICIAN" with safety, by Dr J S Spear, who only by his long study and attention to the cure of the sick, has been enabled to bless with health, humanity, discovering how to remove and restore health, together with some certificates from highly respectable persons, testifying to their healing virtues and superior merit and efficacy. This book can be obtained of Dr Spear's Agents, free.

BALM OF LIFE, No. 1 & 2—For Consumption, Dyspepsia, Indigestion, Liver Complaint, Debility, Nervous Affections, Scrofula, Phthisis, Asthma, Palpitation, Bronchitis &c.

CATARRH SNUFF.—For Colds, Catarrh, Cough, Headache &c; this is a certain cure for Catarrh, and surpasses any other preparation for relieving the head in cases of cold in the head, &c. THE LIVERWORT PILLS, have been for a long time considered universal in their effects. A trial of one box will satisfy the patient that they are the best purgative known—They purge the foul humors out of the system, cure fevers if taken in season.

SCROFULA SYRUP—This is one of the most efficacious agents in use for cleansing and purifying the blood. It removes every impurity from the system, which if not attended to cannot fail to produce Scrofula. It is a compound of aromatic and yet purely vegetable character. For delicacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY CORDIAL, if used according to directions, is a safe and speedy cure for which it is a common and popular FAMILY MEDICINE.

This is the whole system, renews permanently the natural energies—by removing the impurities of the body, and not by stimulating as to produce subsequent relaxation—which is the case of most medicines taken for disease and pleasure. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system and relieving the suffering attendant upon child birth and nursing. It strengthens both the mother and child, lessens pain and disease, increases and improves the flow of milk, and is thought by many to be indispensable.

It is highly beneficial before and after confinement, as it prevents disease without upon child birth—In Costiveness, Cramps, Swelling of the Feet, Dyspepsia, Heartburn, Vomiting, Pain in the Back and Loins, Pains, Piles, Hemorrhoids, and in regulating the secretive and regulating the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use of it must succeed fully, very few cases require more than one dose—a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always assure a safe and easy confinement.

BEAUTY AND HEALTH

Cosmetics, balls, and a variety of other paraphernalia generally used, when applied to the face, very seldom do good to the cuticle, they close the pores of the skin, and clog the circulation, which, when nature is not thwarted by the use of powder, or the skin infested by the slime used in such, neutralizes its own protection and the human face divine, was well as in the garden of richest delicacy, highly and variegated flowers. A free, active and healthy circulation of the fluids or the flowing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flushes of loveliness—that all admire but none can describe. This beauty is the effect from nature—not of powder or soap. It begins not a few and healthy circulation, not the reverse. If the body is fair as it drives snow, if the paint and use cosmetics, and the blood is sick, cold, and impure, she is not lovely. If she be brown or yellow, and there is not a good active blood, it gives a rich bloom to the cheek, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies are so much admired. Ladies in the north who take but little exercise or are confined in close rooms or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain the natural or step back into youthful days, and beautiful complexions, they should use Dr Townsend's Sarsaparilla. Thousands who have used it and are now in the enjoyment of health are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES

Those that have tried Dr Townsend's Sarsaparilla have never by called upon stuff a great remedy for females &c &c and have copied our bills and cir ulars which call to the unsuspicious women, and for another reason why put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended them, although it is known they do not. A number of these Mixtures Pills &c are small doses to fool us and they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one home as unprecedented.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of Scrofula by the use of your excellent medicine—They were afflicted very severely with it, but have taken only four bottles—it took them away for which I feel myself under great obligation. Yours respectfully

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from Physicians in different parts of the Union. This is to certify that we, the undersigned Physicians of the City of Albany, have in many instances prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in use. CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly his agents, have commenced making Sarsaparilla Extracts, Elixirs, Pillers, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have imitated our advertisements, but they are worthless imitations, and should be avoided.

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Inflammation, Swelling of the Joints and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Inflammations of the Skin and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Sprains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness of Parts in the Stomach, Piles, Corns, Warts and Common Sores, and Burns and Scalds.

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the "most effectual" and "certain cures" for all diseases indiscriminately to which man or animals are subject.

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—to reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit, as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced a wonderful medicinal and all-healing properties.

To say, indeed, that we do not expect to receive kind—we remunerative for our services, would be alike useless and untrue. But we flatter ourselves that, if, forsooth we are richly paid, and the article soon very soon, has an extensive sale—the Public are receiving a full and ample equivalent.

As we have already intimated we do not and shall not call to our aid the empty "puffing of the Press," or the "bought certificates" of individuals and shall make use of them only so far as they have known, or hereafter may be, entirely voluntary and unsolicited.

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties. To say less, were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve of mine of Mr A H McKenney, and continued his application until I had used six bottles, which entirely cured me, and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success.

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success which cost me about forty dollars, I bought a box of Jonathan McKenney's Salve, which effected an entire cure in less than two months.

SIMEON MARSTON

BANGOR, June 5, 1846.

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was obliged to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises; and I found indeed to my great satisfaction that it was an invaluable article. I also made application of it in cases of Cuts, Sprains, and bruises upon my family and found it equally beneficial. It can truly be called the All-Healing Salve.

AGENCY FOR BUSINESS

With Mann's Patent Office WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expedited method of obtaining them to the Patent Office, which by a Patent may be procured about six weeks sooner, he continues to devote his time to the duties of preparing Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions, and of consulting in respect to them; that is a great deal of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works, decisions &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. CAUTION EXTRA.

A man by the name of CLAPP has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, designating it GENUINE Original etc. This Townsend is no doctor and never was, but was formerly a porter on railroads, canals, and the like. Yet he assumes the title of Dr for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassau st, New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA. Being now, he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing, many years ago, that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its medicinal virtues would be known and appreciated. This time has come, the means are supplied, this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for through out the length and breadth of the land, especial as it is found incapable of degeneration or deterioration.

Unlike young B F Townsend's, it improves with age, and never changes, but for the better, because it is prepared as scientific principles by a scientific man. The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, which well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use, produce fermentation and acidity which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover these volatile principles which fly off in vapor or an exhalation, unless they are in the very powerful medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from its virtues, they can then strain it a insipid or vapid liquid sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP. But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared that all the fixed properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected, then every particle of medicinal virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women, and children. We find it filling wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINT and in RHEUMATISM SCROFULA, PILES, COSTIVENESS in CUTANEOUS ERUPTIONS PIMPLES, BLOTCHES, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvelous influence in all complaints arising from Indigestion, from Acidity of the Stomach from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands cold chills, hot flashes over the body. It has not its equal in Colds and Coughs and promotes easy expectoration and relaxation of the muscles, relieving stricture of the lungs, the hot and every other part.

Put in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS, and WEAKNESS

I works wonders in cases of Fluor Albus or Whites Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity of the menstrual periods and the like, and is so effectual in curing all the forms of Kidney Diseases.

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus proves to relieves a great variety of other maladies as Spinal irritation Neuralgia, St Vitus Dance Sneezing, Epileptic Fits Convulsions, &c

It cleanses the blood excites the liver to healthy action, strengthens the stomach, and invigorates the bowels, relieves the bowels of torpor and constipation allays inflammation purifies the skin, equalizes the circulation of the blood producing gentle warmth equally all over the body, and thus insures perfect health. It cures strictures and digestives removes all obstructions and invigorates the entire nervous system. It not this then

The medicine you pre eminently need!

If it can any of these things be it is OLD Townsend's Infallible Sarsaparilla. This large man's liquid is not so in CONCENTRATE WITH THE OLD DR'S GENUINE ORIGINAL ACT that the one is INCAPABLE of DOING.

NEVER SPOILS.

while the other DOES souring fermenting and blowing the bottles containing it into fragments the second liquid does not and it may be keep any time and in any climate this bottle comes out be poisonous to the system!—What put acid into a system already diseased with acid. What causes Dyspepsia but acid? Do we not all know that when food ferments in our stomachs it produces fermentation, flatulence, indigestion palpitation of the heart liver complaint diarrhea dysentery, colic, and corrupt the of the blood? What is scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Head Head, Salt Rheum Erysipelas White Swellings Fever sores and all ulcerations internal and external? It is nothing in the heaven but an acid substance, which sours, and decapos all the fluids of the body pure or foul. What causes Rheumatism but a sour or acid fluid which inflamates itself between the joints and chou ere irritating inflaming and distending the delicate tissues upon which it acts? Sc of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now it is not horrible to make and sell and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet the world fain have it understood that Old Dr Jacob Townsend's Genuine Original Sarsaparilla is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's or acid and which should bring down upon the Old Dr the combined loud roll of complaints and ejaculations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND.

We wish it understood because it is the absolute truth, that S P Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are heaven wide apart and infinitely dissimilar, that they are unlike in every particular having no one single thing in common.

As S P Townsend is no doctor and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common sense enlightened man, what guarantee can the public have that they are receiving a genuine scientific and medicine containing all the virtues of the article in question, and which are incapable of changing sour in stomachs and make them the MEANS of DISEASE instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease. It requires a person of the experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine, designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the vast mischiefs which will affect the human system and how to adapt remedies to those diseases.

It is to arrest frauds upon the unfortunate to pour balm into wounded human hearts to heal the broken hearted, to restore health and bloom and vigor to the crushed and broken spirit, and to establish firmly that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring this

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know by joyful experience, its

Transcendent Power to Heal.

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me, to the Editor of the GOSPEL LAMPLIGHTER—

DOWN'S ELIXIR, AND A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring, I received great benefit from the use of N H DOWN'S ELIXIR.

I had been troubled some weeks with a severe cough which so afflicted the throat that it was with great difficulty I discharged the duties of my office. My cough continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed my strength wasted, and my flesh disappeared. Seeing Dr Hurd's Balsam of Wild Cherry so much recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles, when I became satisfied that it contained opium, making a large amount of phlegm necessary, and relaxing the muscles of the organs that should be relaxed. I used other kinds of patent medicines, but with no good effect. Seven weeks I continued gradually to sink under my disease, when the opinion of my friends, I was carried in my weak my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain in the pit of my stomach. My tongue was coated with a white fur, bowels irregular and costive, hectic fever, night sweats, dry hard cough, difficulty of breathing, and low spirits. My stomach at this time was so sore and weak that it was with difficulty I could stand erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR—And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy motion upon the skin. I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength. I continued about six weeks, using six bottles at which time I
